

Winchester Health
1315 Bloomingdale Rd
Baltimore MD 21216

Winchester Health is a community based outpatient treatment program dedicated to helping individuals with prescription drug abuse and opiate addiction regain control of their lives. Our office provides psychiatric rehabilitation program for adults as well. We take great pride in treating our patients with dignity and respect in each phase of their treatment experience. We are currently seeking for a rehabilitation specialist in our PRP. We look forward to you joining our team.

Position: Rehabilitation specialist (PRP)

Overview of job duties:

- Ensuring compliance of the PRP program under COMAR 10.63
- Conducting and developing client's rehabilitation assessment for Psychiatric Rehabilitation Program.
- Developing Individual Rehabilitation Plan.
- Ensuring that the PRP Rehabilitation Counselors are following the Individualized Rehabilitation plan.
- Review progress notes to verify that direct care counselors are effectively addressing the treatment needs and implementing the goals and/or objectives set forth in the Individual Rehabilitation Plan (IRP).
- Conducting monthly supervision with the counselors.
- Participating in group meetings. Educates direct care staff on how to provide rehabilitation services that correlate with the goals identified in the IRP.
- Participating in Rehabilitation Counselor's meeting and training. Develops and assures that rehabilitation services meet the needs of the individuals served by the program; Supervise direct care staff.
- Completion of discharges
- Other duties assigned

Qualifying applicants must meet the following qualifications:

- Licensed mental health professional (LCSW, LCPC, LMSW, LGPC, LGSW)
- 1 year of relevant experience

Benefits include health insurance, paid time off...
