## **QUESTIONS AND ANSWERS**

Posted: June 30, 2023

### **How are the youth being served identified?**

If the applicant is partnering with a housing program, they are likely to have residents needing services already. If the applicant is the housing provider, it would be their responsibility to identify youth served.

### **There are two contract periods described in this RFP. Will the 9-month period include the same deliverables as the year-long one?**

During the initial 9-month contract period, the selected organization is expected to serve 18-20 youth residents. During subsequent 12-month contract periods, 20-25 youth residents will be served. All other deliverables in the RFP are required during the initial 9-month contract period.
